

Dedicated and Customizable Document Scanning Kiosk

Scan documents and their metadata directly to SharePoint without a PC

Optimize your scanning workflow with the eScan SharePoint Scanner

The Plustek eScan optimizes your SharePoint document management by letting you add your metadata directly to the scanned document before saving it into the library. The individual logins with custom presets makes the paper works more efficiently.

The eScan offers a full-color, intuitive interface that makes Microsoft SharePoint accessible to everyone without extensive training. No matter what industry you work in, the eScan document-scanning kiosk can be easily integrated into your workflow.

- Customized individual account settings for required or repeated tasks
- Barcode recognition automatically separates documents for easy bulk scanning
- Scan documents directly to designated folders or add folders as you go
- Scan to Office 365, watched folders or other document management system

Highlights

- Fast duplex scanning, scans PDF, JPG or TIFF
- Rigid card and multiple paper weight scanning
- Built-in image enhancement, cropping and blank page removal
- Attach a USB keyboard (not included) for convenient credential login and file naming
- Portable unit provides privileged access, privacy and convenience
