GOT INVOICES?

DEMAT'BOX[®] COLLECTORS HELPS SAVE YOU TONS OF TIME

Concept

Demat'Box, the complete one-stop ecosystem!

Demat'Collect[®] web allows you to automatically retrieve your customers' invoices from their suppliers. As soon as an invoice is available, it will be sent directly to your accounting system.

Demat'Collect[®] mail allows you to fetch invoices that your clients receive by email directly into your accounting system. To achieve this, your clients can either provide the dedicated email address to their suppliers or they will have to forward the email received using this dedicated email address.

Benefits

Efficient transmission: Once available in your clients' supplier area, invoices are automatically transmitted to your accounting system.

Simple mechanism: Your clients' suppliers can send you invoices directly or your clients can forward the invoice emails themselves.

Automated workflow: No more tedious manual work.

Seamless integration: Access a world of suppliers across industries.

Secure ecosystem: Every invoice seamlessly and securely reaches your accounting system, ensuring end-to-end protection.
