

Streamlined Customization Services

FileDistributor II lets you create tailored file naming rules with ease. Use the intuitive interface to define up to three recognition zones on your scanned document and mask sensitive information as needed. Customize your workflow to ensure smarter, more efficient document processing.

Tailored File Naming Made Easy

- 1. **Select Custom Profile:** Choose "Custom Naming Profile" from the Scan Button Profile list.
- 2. **Load Sample Document:** Use a Plustek scanner to scan and import your sample document.
- 3. **Set Recognition Zones:** Drag and define data recognition zones for your naming rules. Mask confidential information if necessary.
- 4. **Submit Request:** Fill out your contact details and send the customization request to Plustek.
- 5. **Update Profile:** After receiving the email notification, update the profile in the software with the customized template.

\*If more customization beyond the standard service package is required, additional fees will apply. Please contact us for further details.

Flexible Scanner Bundles

Plustek offers a wide range of scanner options bundled with FileDistributor II to streamline your document processing and organization for every need.

PT2160 (60 ppm /120 ipm)

Designed for high-volume environments, the PT2160 offers high-speed scanning, robust feeding, and versatile document handling for demanding tasks.

PS3140U (40 ppm /80 ipm)

Featuring ultrasonic technology, the PS3140U ensures error-free handling during large batch processing, boosting productivity for medium-sized workgroups.

PS188 (30 ppm/60 ipm)

Compact, lightweight, and affordable, the PS188 is ideal for small offices or personal use, efficiently handling routine scanning tasks with 9 one-touch buttons.

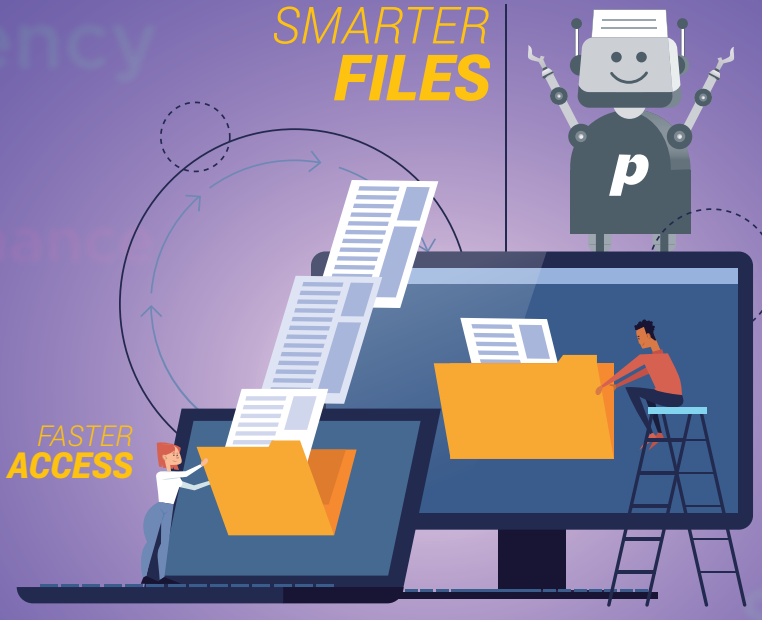

FileDistributor II

Automated File Naming and Classification Software

- 1 **Automatic File Naming**  
Recognize barcodes or text on documents to automatically assign precise, consistent file names.

- 2 **Automatic File Separation**  
Split documents intelligently by barcodes or page counts into single-page or multi-page files.

- 3 **Automatic File Archiving**  
Save files directly to designated folders or auto-generate folders based on preset rules.

- 4 **Tailored File Naming Rules**  
Create custom templates using barcode values or text zones by connecting with Plustek for development.

Revolutionize Document Management with Intelligent Batch File Organization

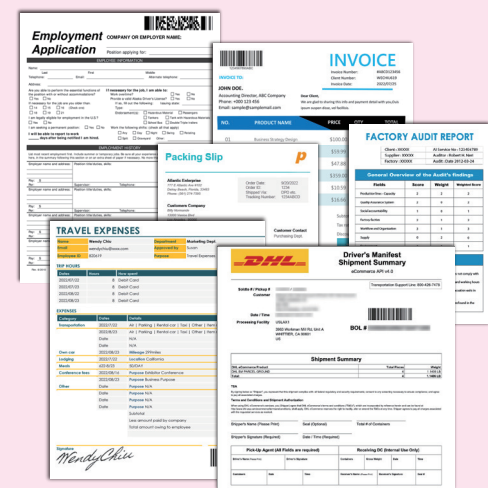

Unlock the Power of Automation with Plustek

Customization Service Included!

Optimized for your document and workflow needs

## Versatile Document Support

Easily process diverse document types with advanced barcode and text recognition. From automating file naming with barcode data to generating searchable PDFs, FileDistributor II streamlines your workflow, ensuring effortless document management every step of the way.

- **Employment applications**
- **Invoices**
- **Packing slips**
- **Travel expenses**
- **Factory reports**
- **And more!**

## Core Processing Technologies

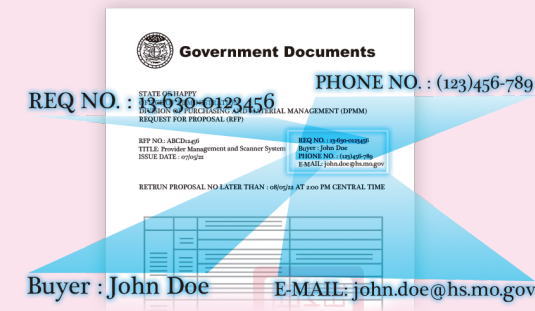

**Powerful Barcode Recognition:** Support 1D and 2D barcode formats for precise, automated identification and processing, including UPC, EAN 13, Code 39, Code 128, Codabar, QR Codes, PDF417, DataMatrix, Aztec, and more.

**Comprehensive Data Capture:** Extract data from structured and unstructured documents, using advanced OCR technology to capture text through zone-based, full-page, or dynamic methods for enhanced document processing.

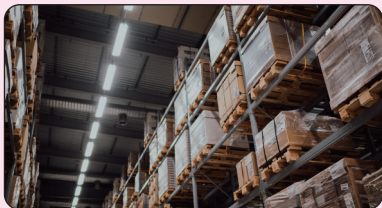

**Effortless Smart Automation:** Automate file separation, naming, and archiving by using recognized barcodes or text without complex configurations.

**Intelligent Image Processing:** Optimize scanned results with built-in tools like auto-rotate, deskew, cropping, and quality enhancement.

**Tailored Customization:** Customize your workflows with included services for a tailored solution that fits your organization's needs.

## Industry-Scale Applications

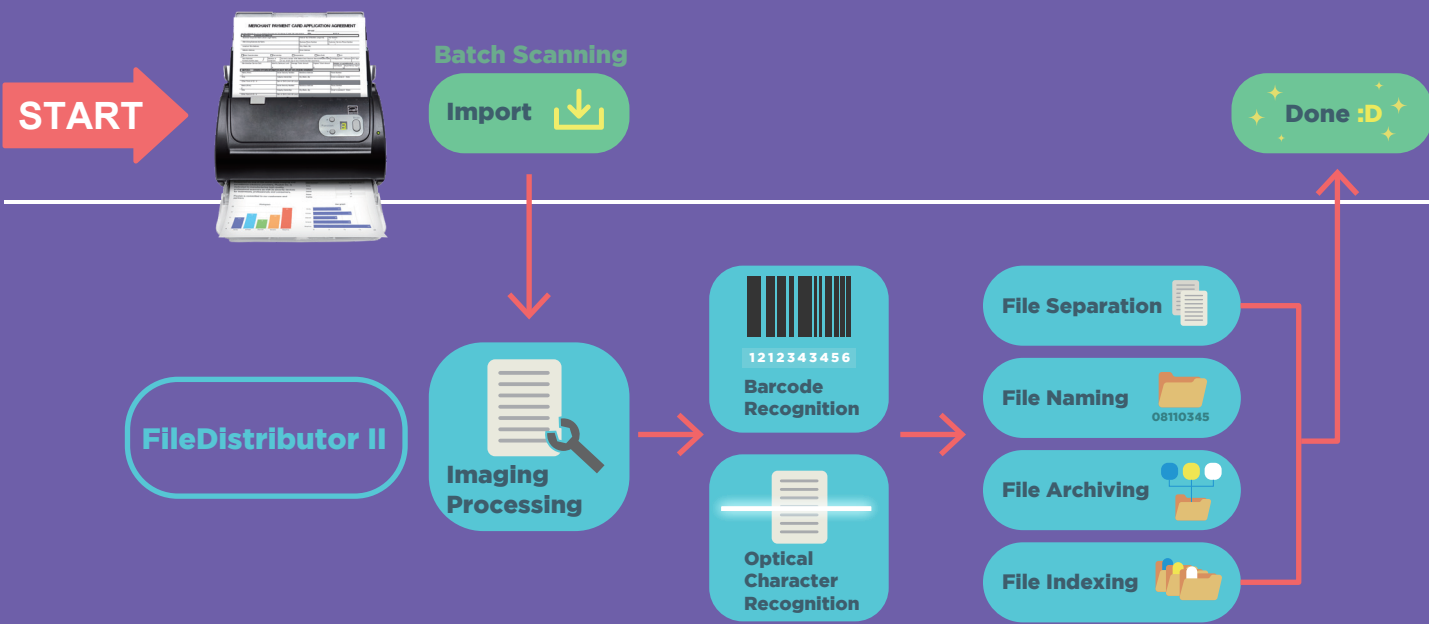

**Logistics:** FileDistributor II boosts logistics efficiency by automating the indexing and organizing of shipping documents and delivery receipts. Customizable barcode recognition simplifies batch processing and file naming for quicker retrieval and streamlined operations.

**Government:** FileDistributor II automates the scanning and categorization of legal forms and public records. It extracts key data, such as reference numbers or identification codes, ensuring compliance and providing faster access to critical information for more efficient processes.

## Seamless Document Workflow

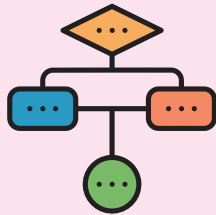

**FileDistributor II** automates your entire document workflow. Import documents with batch scanning through a Plustek scanner, then let the software handle image processing and apply barcode and OCR recognition. The system automatically separates, names, archives, and indexes your files—effortlessly and with zero manual input. Enjoy efficient, organized document management from start to finish.

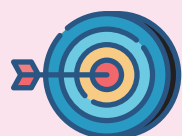

## Productivity-Boosting Automation

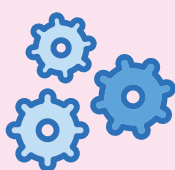

**Time-Saving Efficiency**  
Effortlessly automate repetitive tasks like sorting, labeling, and archiving. Free up valuable time and resources, allowing your team to focus on higher-impact work and boost overall productivity.

**Optimized Workflow**  
Accelerate document processing and retrieval by automating file separation and indexing. Enjoy faster decision-making and smoother operations with optimized workflows.

**Enhanced Accuracy**  
Leverage advanced barcode and text recognition technology to reduce human error in file naming and categorization. Achieve consistent and reliable results across your team every time.

**Scalable Flexibility**  
Designed to grow with your organization, FileDistributor II seamlessly adapts to companies of all sizes. Tailor the software to your unique needs and easily scale as your business expands.
