Plustek SmartScan

Streamline to SharePoint On-Premises and Other Major Clouds, with Barcode Renaming Capabilities in A Scope

Key Feature

✔ **EASY-TO-USE**- One-touch scanning to preset destinations with a push of a button. Simply drop in the documents and start SCAN-VIEW-SAVE.

✔ **SCAN TO CLOUD**- Directly scan into integrated cloud services (Microsoft 365 (SharePoint / OneDrive / OneNote / Outlook), Dropbox, Google Drive, Evernote, and Box. In addition to SharePoint On-Premises 2013/2016/2019, eMail, SMB/CIFS network folders, FTP/SFTP/FTPS, Microsoft Exchange, as well as local folders.

✔ **OPTIMIZE SCANNED IMAGES**- Enhance scans with automatic image rotation and density enhancements, remove blank pages, fill edges (edge filler), merge or split images, remove punch holes, insert watermarks and more.

✔ **BUILT-IN BARCODE RECOGNITION**- Recognize up to 12 barcode types to rename scan files and divide scanned images into multiple files to create searchable PDFs with Plustek OCR powered by ABBYY .

Note1: Try SmartCapture full access extraction tool free for 30 days. Continue to use the app by activating with annual subscription.
Note 2: Subject to security statement agreement, please contact local sales representatives for more detail.
Note 3: Function vary based on scanner models

SmartCapture
View, Extract, Verify- All on one screen
Get accurate data extraction and easy file renaming from scanned images or digital files through imports, productivity right out of box.

Increase Document / Invoice Automation
Eliminate the need for manual data entry by extending full data-extraction automation.

Improve Extraction Data Accuracy
Prevent transcription errors in manual processing by using digital data extraction to extract data.

Intelligent Review
Learns from corrections and and use machine learning to improve accuracy on future documents/invoices.

Advanced File Naming
Rename filenames based on important and crucial text that are require in daily operation within the document.

Hardware Requirements (Windows)
2.0 GHz CPU processor or higher[1]
[1](Windows Recommended: 2.8 GHz Intel® Core™ i5 Processor with 4 CPU Cores or higher)
4 GB RAM minimum (Recommended: 8 GB or more)
6 GB of hard-disk space for program installation
Display dimensions of 1024x768 or greater

Windows 7 compatible **Windows 8** compatible **Windows** **ABBYY™**

Plustek SmartScan

Built-In Preview & Editing Tool
Rotate, crop, remove pages that you don't need, insert more pages to the batch, or split the scans further into multiple files, easily from one location.

Supports SmartCapture for accurate data extraction
Get accurate data extraction and easy le renaming from scanned images or digital les through imports, productivity right out of box. * Note1

Supports SharePoint Document Check-In
Supports all SharePoint library metadata fields. Users are automatically prompted to enter metadata before documents are streamline to its destination.

111-222-333.pdf

GGG-HHH-III.pdf

Built-in Barcode Recognition
Supports up to 12 barcode types, including both 1D and 2D barcodes (QR Codes). With a few configuration user can rename document and split documents with ease.

Encrypt PDF Documents
Protect your confidential documents with password protect encryption to grant accessibility to open, modify docs, print, or cop the scan docs.

Built-in OCR
Convert by performing optical character recognition on scan images and transform them into or searchable PDFs directly.
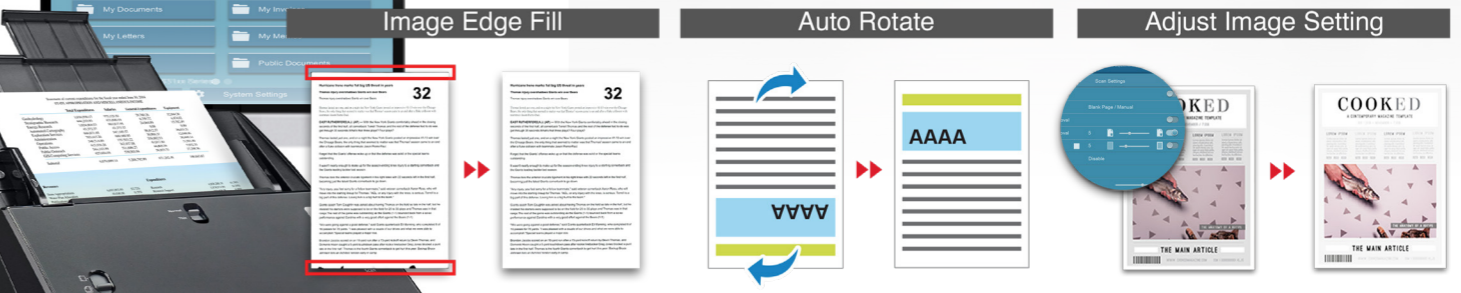

Simple Separation Mechanism Methods

Batch scanning solution. Perform document separation automatically by count, inserting blank sheets of paper, by detecting barcodes, or perform separation manually as you scan.

Advanced File Separation
Creating multiple files in a single batch scan
