**Hardware Requirements** (Windows)  
2.0 GHz CPU processor or higher  
(Windows Recommended: 2.8 GHz Intel® Core™ i5 Processor with 4 CPU Cores or higher)  
4 GB RAM minimum (Recommended: 8 GB or more)  
6 GB of hard-disk space for program installation  
Display dimensions of 1024x768 or greater

# Plustek SmartScan

The one-stop solution offering powerful tools and an intuitive interface to streamline your entire digitization lifecycle.

## Key Features

- ✓ **INTUITIVE INTERFACE** – Designed for simplicity that lets you breeze through all scanning tasks.
- ✓ **CUSTOMIZED JOB PROFILES** – Save time by using "shortcut" buttons to instantly apply your most-used scanning settings, making document processing quick and easy.
- ✓ **POWERFUL IMAGE PROCESSING** – Improve scan quality with features such as image rotation, blank page removal, edge filling, image merging and splitting, punch hole removal, watermarks, and more.
- ✓ **BUILT-IN BARCODE READER** – Detects up to 12 barcode types to automate data extraction, streamline file naming, and enable smart file separation.
- ✓ **DYNAMIC AUTO-NAMING** – Accurately extract data and effortlessly name files from scanned or imported images. An instant upgrade to your digitizing workflow.

## Data Capture at Your Fingertips

View, extract, and verify — all in one seamless step!

**Document & Invoice Automation at Your Fingertips**  
Eliminate manual data entry with automated data extraction.

**Continuous Data Accuracy Optimization**  
Software gets smarter with every scan through machine learning and anchor point analysis.

**Intelligent Data Review**  
In extremely rare cases of OCR discrepancies, human review and rule-based logic may be applied to ensure perfect results.

**Advanced File Naming**  
Generate file names from extracted document data to improve file organization and retrieval.

# Plustek SmartScan

## Built-In Preview & Editing Tools

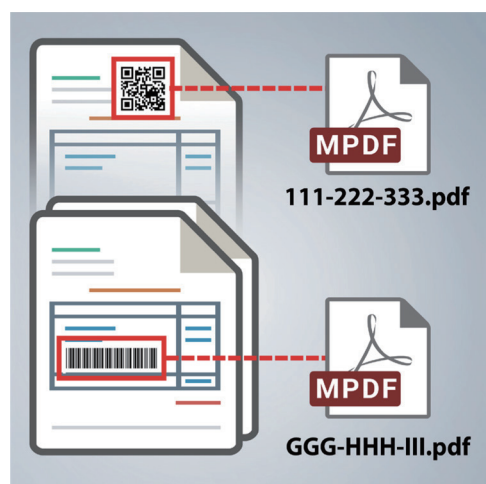

Image rotation, cropping, insertion, page removal, and file splitting—all in one place.

## Parsing Critical Data From Documents

Easily and accurately extract data and rename files with imported scanned images or digital files to increase productivity.

## Supports SharePoint Document Check-In\*1

All SharePoint library metadata fields are supported. Users are automatically prompted to enter metadata before documents are saved to the designated locations.

## Built-In Barcode Recognition

Supports up to 12 barcode types, including both 1D and 2D formats. Ideal for automating tasks such as file naming and file splitting.

## Advanced PDF Encryption

Safeguard your files with user logins, so you can work securely on shared devices with peace of mind.

## Built-In OCR

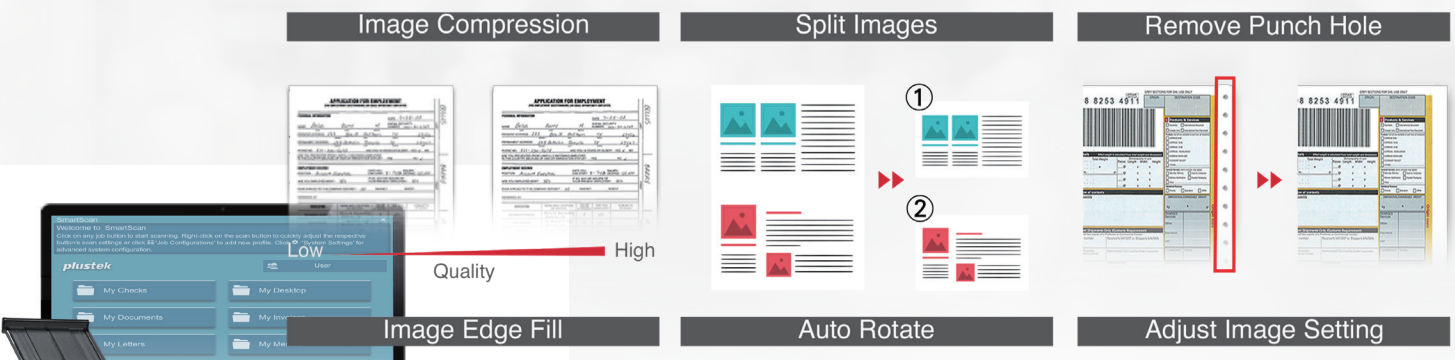

Quickly convert scanned images into searchable PDFs using Optical Character Recognition (OCR).

## Intuitive File Splitting Tools

- Manual separation
- Blank page insertion
- Barcode-printed page detection
- N<sup>th</sup> page removal counter

## Advanced File Separation

Create individual files effortlessly from one batch scan

## Advanced Image Processing

Simplifies digitizing process, allows each and every document scan is crisp and clear, just the way you like it, without spending additional time to reorganize.
