# Installing the Scanner

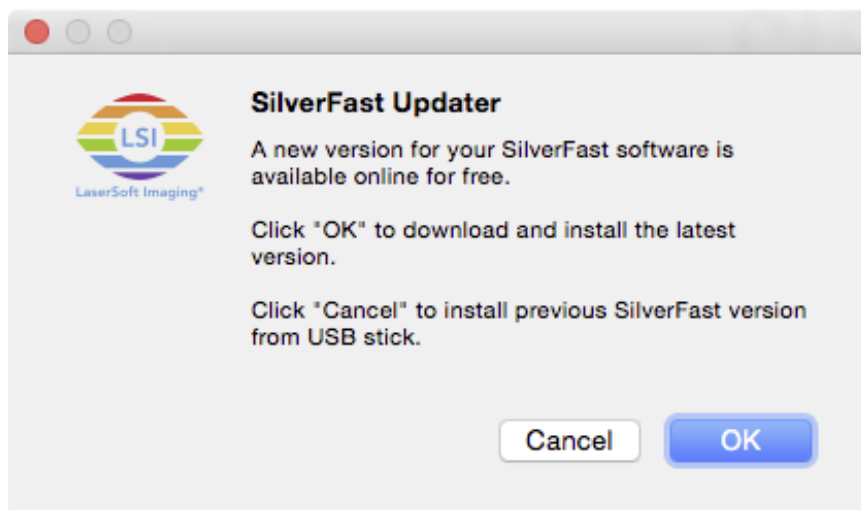

Please follow the step-by-step procedures described below to install the USB scanner.

\*You may find the latest driver on our official website [www.plustek.com](http://www.plustek.com) -> Support & Download -> Drivers and Downloads

## Installing SilverFast Software

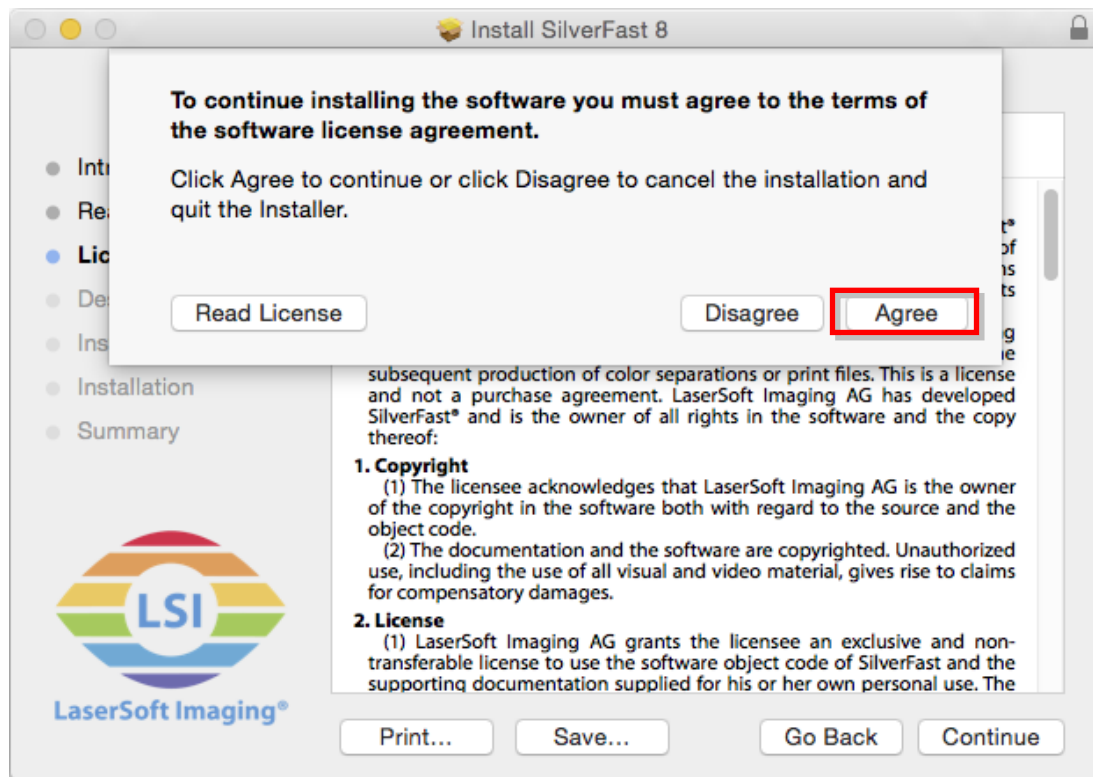

1. Insert the Setup / Application USB stick into your computer.
2. Install the **SilverFast** software by the following path:  
Mac OS X: **OPTICFILM** > **Mac** > **SilverFast** > **SF-Installer.dmg**

If a more recent SilverFast version is available online, the following dialog will be displayed.

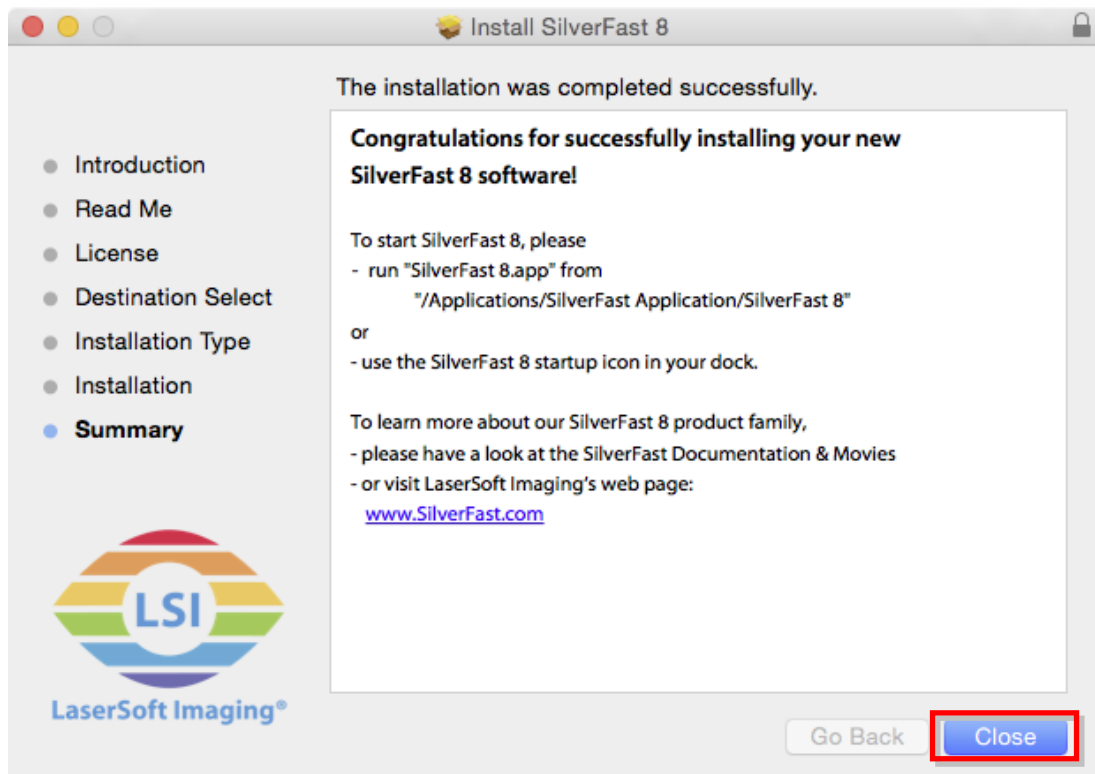

Click [OK] to download and install the latest SilverFast version from the internet or click [Cancel] to install the out-of-date version from the USB stick.

3. Follow the on-screen instructions.

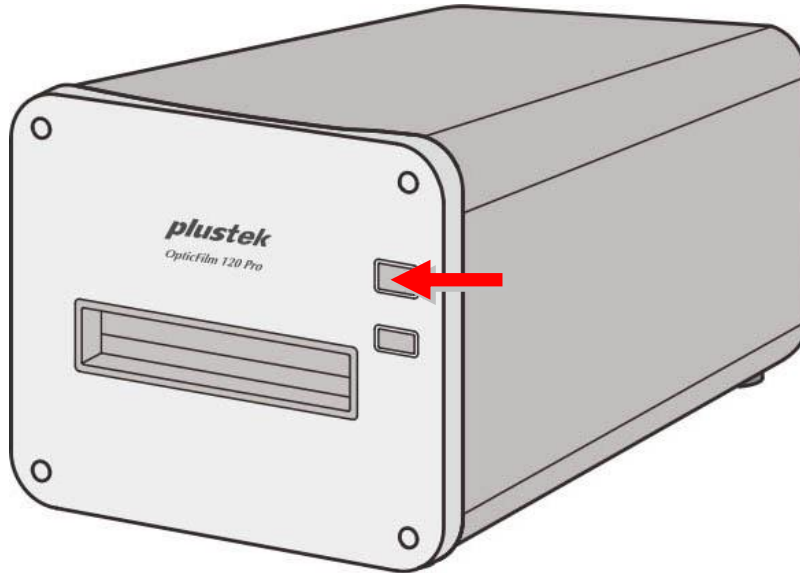

4. After the installation finishes, click on [Close] to exit the installer.

## Power on the Scanner

Press and hold the button for **2 seconds** then release the button to turn the scanner ON.

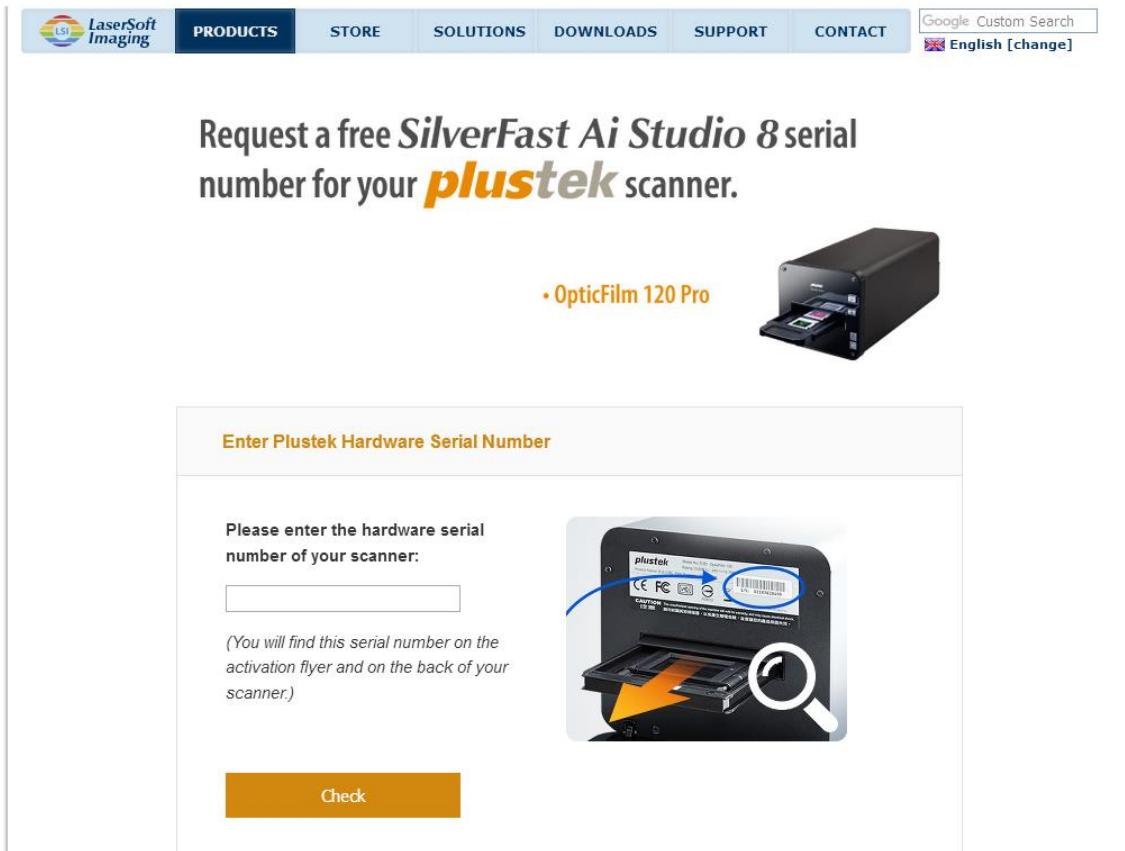

### Attention

Press and hold the button for **2 seconds** then release the button to turn the scanner OFF.

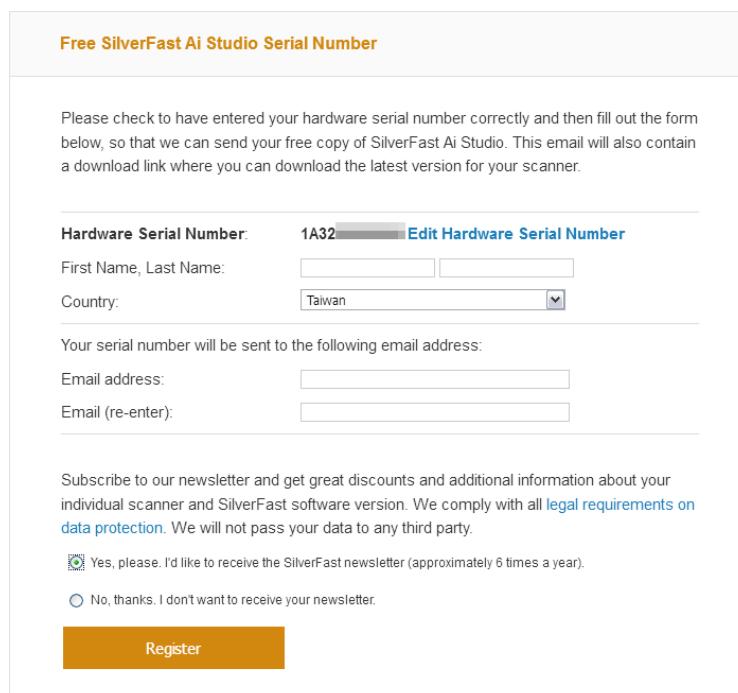

# Request for SilverFast Serial Number

1. Visit the website [www.silverfast.com/activation-plustek](http://www.silverfast.com/activation-plustek) and follow the instructions. You will need your scanner hardware serial number.

The screenshot shows the top navigation bar with the LaserSoft Imaging logo and links for PRODUCTS, STORE, SOLUTIONS, DOWNLOADS, SUPPORT, and CONTACT. A search bar is also present. The main heading reads "Request a free SilverFast Ai Studio 8 serial number for your **plustek** scanner." Below this, an image of the "OpticFilm 120 Pro" scanner is shown. The central form is titled "Enter Plustek Hardware Serial Number" and contains a text input field for the serial number, a "Check" button, and an image of the scanner's back panel with a magnifying glass highlighting the serial number location. A note states: "(You will find this serial number on the activation flyer and on the back of your scanner.)"

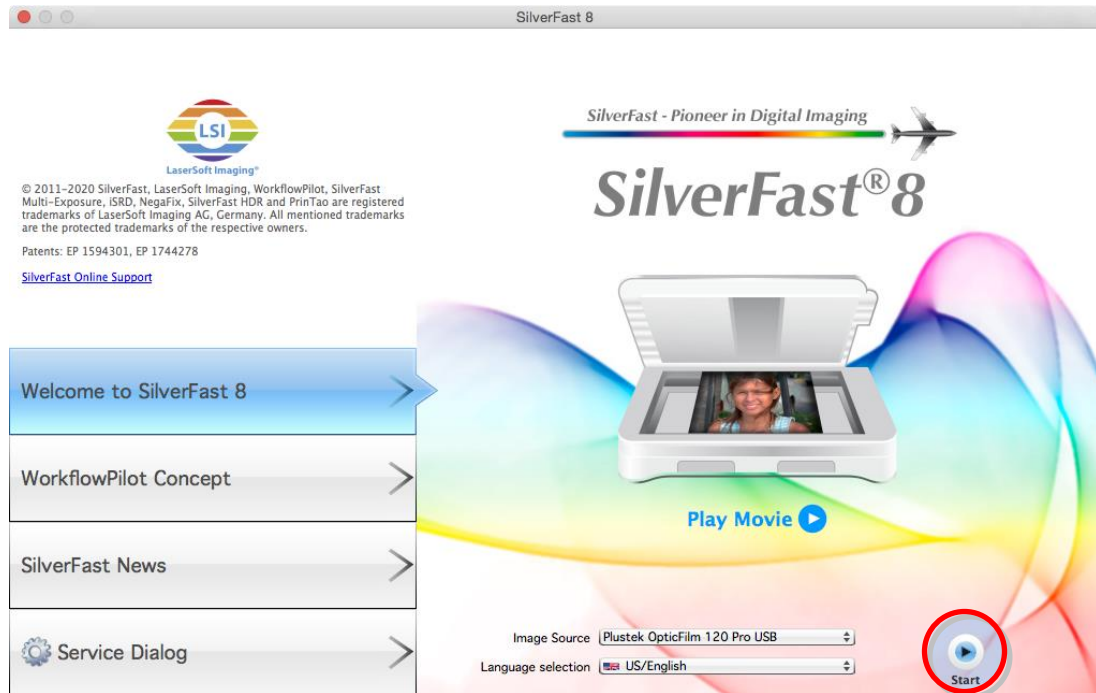

2. Enter your **scanner hardware serial number**, your name, and your email address. The SilverFast serial number will be sent to your registered email address.

The registration form is titled "Free SilverFast Ai Studio Serial Number". It includes a paragraph of instructions: "Please check to have entered your hardware serial number correctly and then fill out the form below, so that we can send your free copy of SilverFast Ai Studio. This email will also contain a download link where you can download the latest version for your scanner." The form fields are: "Hardware Serial Number" (with a value of "1A32" and an "Edit Hardware Serial Number" link), "First Name, Last Name" (two input fields), "Country" (a dropdown menu with "Taiwan" selected), "Your serial number will be sent to the following email address:" (two input fields for "Email address" and "Email (re-enter)"), and a "Subscribe to our newsletter" section with two radio buttons: "Yes, please. I'd like to receive the SilverFast newsletter (approximately 6 times a year)." (selected) and "No, thanks. I don't want to receive your newsletter." A "Register" button is at the bottom.

# SilverFast Software Serialization

1. Launch the SilverFast program using the SilverFast shortcut on your Desktop. Verify your [Image Source] and [Language selection], then click on [Start] to launch the program.

2. Once the program has been launched, enter your [First name], [Last name] and [Serial number], then click on [Unlock] to unlock SilverFast.

Please enter your SilverFast serial number:

First name

Last name

Company

Serial number  -  -  -  -  -

In accordance with the Software License Agreement, the software will automatically activate over the Internet. This is done by the encrypted transmission of last name, first name and serial number.

For more information about the data we collect and how our software uses this data, please see our Privacy Policy.

 <b>Attention</b>	Visit the website <a href="http://www.silverfast.com/activation-plustek">www.silverfast.com/activation-plustek</a> to request SilverFast serial number. You will need your scanner hardware serial number.
