# Installing the Scanner

Please follow the step-by-step procedures described below to install the USB scanner.

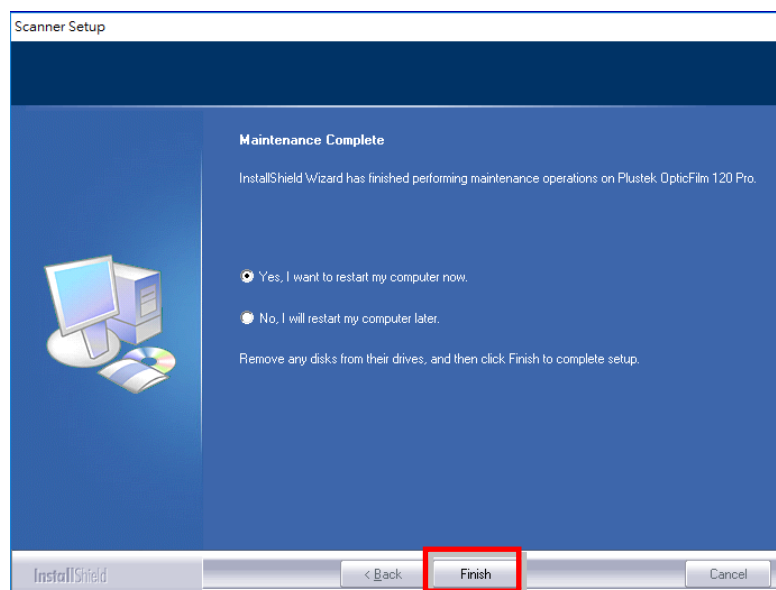

\*You may find the latest driver on our official website [www.plustek.com](http://www.plustek.com) -> Support & Download -> Drivers and Downloads

## Installing Scanner Driver

1. Insert the Setup / Application USB stick into your computer.
2. Click **Setup.exe** under **OPTICFILM > Windows > Plustek OpticFilm 120 Pro** to install the scanner driver.

3. After the software is installed, close all open applications and click on the [Finish] button to restart your computer.

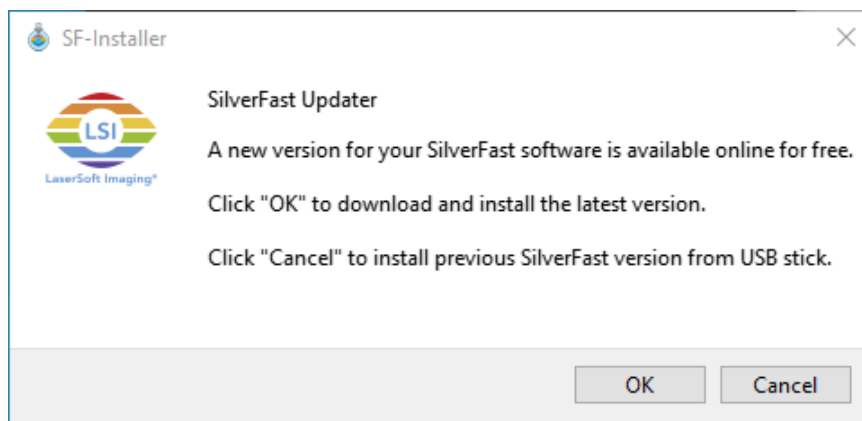

## Installing SilverFast Software

---

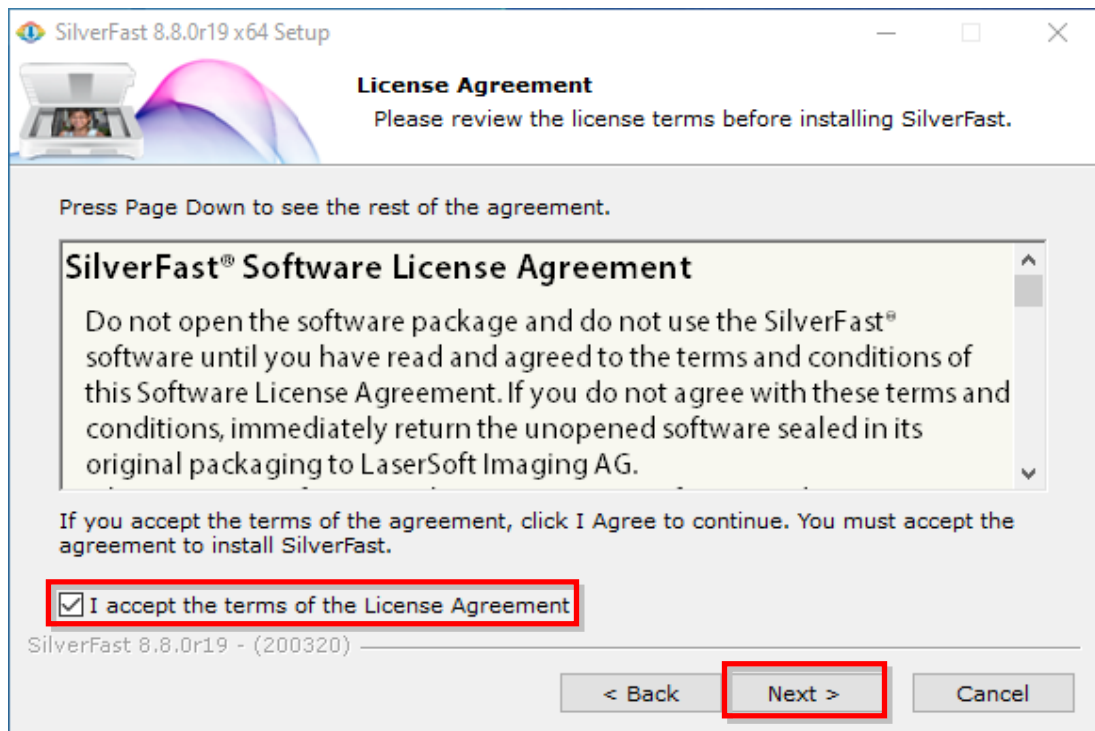

1. Insert the Setup / Application USB stick into your computer.
2. Install the **SilverFast** software by the following path:  
[Windows OS: OPTICFILM](#) > [Windows](#) > [SilverFast](#) > [SF-Installer.exe](#)

If a more recent SilverFast version is available online, the following dialog will be displayed.

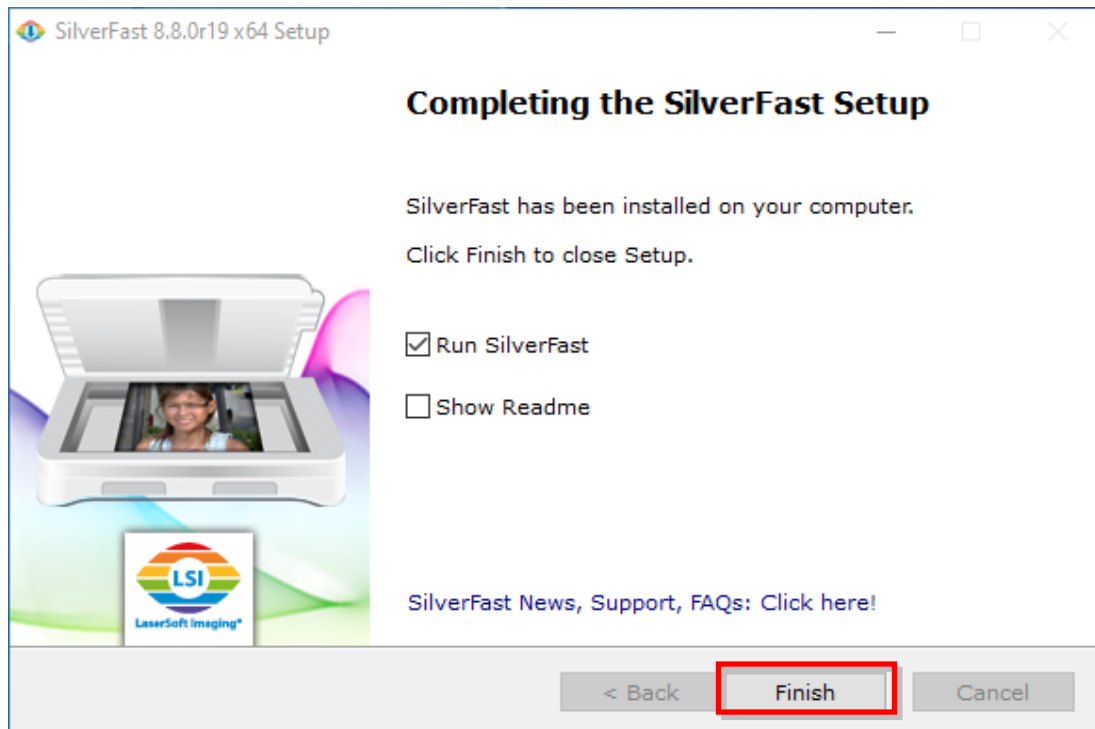

Click [OK] to download and install the latest SilverFast version from the internet or click [Cancel] to install the out-of-date version from the USB stick.

3. Follow the on-screen instructions.

4. After the installation finishes, click on [Finish] to exit the installer.

## Power on the Scanner

Press and hold the button for **2 seconds** then release the button to turn the scanner ON.

### Attention

Press and hold the button for **2 seconds** then release the button to turn the scanner OFF.
